Washington Roundup

Diplomatic Washington expresses belief today that the next 60 to 90 days will mark one of the most momentous periods of the entire war. This belief is caused by Prime Minister Churchill's warning to the British people that the hour of their greatest military effort is approaching.

As smashing allied blows in Europe are planned, a survey of official communications and announcements shows the furious pace of the allied sea-air offensive against Japan's battered supply lines. During the past week alone 66 enemy vessels were sunk or damaged. The American score against Japan's sea-power was boosted to at least 1,118 warships and supply vessels sunk since the outbreak of war.

Meanwhile, the army appears to be winning its tug-of-war with civilian production chiefs for the nation's dwindling supply of physically fit young men. The pool of men under 26 years of age will be divided beginning next Thursday. Indications are that war and war supporting activities on the home front will get are less than the more than 100,000 deferments expected to be requested.

The Costello house subcommittee on draft deferments enters the draft picture today but on a different angle. The committee opened a probe into charges by Rep. Harbo (R) Ind., that agricultural adjustment agency committees are using a draft threat to coerce farmers into signing up with AAA.

On the other side of Capitol Hill Sen. Connally (D) Tex., chairman of the senate foreign relations committee, defends the state department against charges of lack of frankness by declaring "you cannot conduct foreign relations out on the front porch."

Hour Of Greatest Allied War Effort Now Approaching

Churchill Urges Allied Nations To Concentrate On Speeding Up War Victory

U. S. VICTORIES IN PACIFIC FACTORS

By JOHN E. LEE
(U. S. Staff Correspondent)
LONDON, March 27.—Well-informed sources in London today hailed Prime Minister Winston Churchill's latest broadcast speech as a clearly worded challenge to the nation—and the allied world—to concentrate all efforts on winning the war as soon as possible in all theaters of the globe.

Japan May Fall Earlier
In his speech, Churchill revealed that because of America's striking gains in the Pacific, the Japanese empire may be defeated earlier than he had believed possible and renewed his pledge that Britain will fight to the finish in the Pacific once the European war is ended.

The man in the street, struck by the blunt declaration that the "hour of our greatest effort and action is approaching," pondered also the nature of the possible "new forms of attack" which Churchill warned Germany may attempt and braced himself for a renewal of the familiar, but dreaded, war of nerves. Churchill's broadcast was beamed to Britain, her dominions, and the

Lightning Causes Plant Explosion Near Uniontown

UNIONTOWN, Pa., March 27.—(INS)—The 1600-foot square glass mill of the Du Pont de Nemours company, three miles from Uniontown, was struck by lightning during a heavy thunderstorm at 7:15 a. m. today and exploded with a roar heard at least 10 miles away.

In nearby Uniontown, hundreds of windows were reported shattered and residents were alarmed by the heavy shocks, the worst felt in the area in years.

Company officials said no one was injured.

Fred Schreckengost, a glazier in the mill, had just left the building about five minutes before the terrific blast.

Because of the heavy atmosphere, it was reported, damage was great in the surrounding area.

Heavy Bombers Of R.A.F. In Night Attack On Essen

Nazi Industrial City Is Again Subjected To Terrific Bombing From Air

DAYLIGHT ATTACK FOLLOWS RAF RAIDS

By CHARLES A. SMITH
(U. S. Staff Correspondent)

LONDON, March 27.—The Nazi industrial center of Essen, home of the sprawling Krupp Munitions Works and many vital Nazi war industries, was blasted last night by giant fleets of RAF heavy bombers operating in "very great strength," the air ministry announced today.

Authoritative sources estimated that 2,800 tons of bombs were dropped by 800 or more bombers on the stricken city, last raided on the night of July 25, 1943.

Daylight Attacks
Daylight bombers and fighters crossed the British east coast this morning en route to the continent in continuation of the non-stop offensive.

Handover and other objectives within the Reich and rail yards at Courtrai in Belgium also were blasted as the Royal Air Force carried the Allied non-stop aerial campaign of devastation one step near fruition.

The first official identification of the target came in a brief air ministry communiqué which said merely:

"Last night aircraft of the bomber command were over Germany in very great strength. The main objective was Essen."

The city first leaped into the war's spotlight when it became the second city hit with more than 1,000

Yanks Crush Latest Suicidal Jap Onslaught

Effort Made On Bougainville Costs Jap Casualties On 75 To 1 Ratio

SEVERAL THOUSAND IN ENEMY ATTACK

By GEORGE LAIT
(U. S. Staff Correspondent)

GEN. MACARTHUR'S HEADQUARTERS, New Guinea, March 27.—American jungle troops were revealed today to have crushed a new suicidal Japanese onslaught on strategic Bougainville Island in 24 hours of bitter fighting, in which casualties of at least 75 to 1 were inflicted on the bewildered enemy.

Announces Victory
Gen. Douglas MacArthur announced the newest victory in an official bulletin which disclosed also that fresh units of dismounted cavalrymen have taken two more islands in the Admiralty group to strengthen their hold on that chain.

The Japanese garrison on Bougainville launched its "do-or-die" onslaught Thursday. Several thousand Japanese struck at the American pillboxes and barbed wire shortly after dawn, concentrating their full force along a relatively narrow front.

Battle Rages
Throughout the day and night the furious close-quarter battle raged, but in mid-morning Friday the Japanese finally were forced to withdraw. On the field, they left at least 30 of their own dead within the American lines, exclusive of others killed beyond the defense perimeter. Only four Americans were killed.

Forty-seven others were wounded and one man is missing, but the extent of Japanese losses in these categories, while unknown precisely, was believed far in excess of the American total.

The air war against the main Japanese air base at Wewak, northern New Guinea, and Rabaul, New Britain, continued unabated. Strong formations of Liberators, Mitchells and Havocs dumped 207 tons of explosives on Wewak, where they destroyed or damaged several parked planes, wrecked numerous buildings and set fire to important fuel dumps.

Bombers Attack In North Italy

NAPLES, March 27.—(INS)—Heavy strikes against Nazi rail communications in North Italy by all types of allied bombers were reported in a headquarters communiqué today.

Two-motored Martin Marauders scored hits on viaducts west of Arezzo and on the main double-track Rome to Florence rail line.

Four-motored bombers attacked Fiume, at the northern end of the Adriatic, Port Manfreda and an airfield and the rail yards at Rimini. Fighter-bombers struck at the harbor of Castellione, the bridge at Stimigliano, gun positions and troop concentrations in the battle area.

At night British Wellingtons and Liberators lashed at the Venezia rail yards, 40 miles west of Venice. They set fire to a cotton and woolen mill and repair depots.

Seven German planes were reported shot down and five allied craft were listed as missing in all action which included blows against bridges and harbors along the west coast above Rome.

Greta Garbo To END RETIREMENT

WASHINGTON, March 27.—(INS)—Greta Garbo, the famous Swedish motion picture star, planned today to emerge from two years retirement to help the United Nations win the war and free Norway from the Nazi yoke.

The Norwegian embassy announced that Miss Garbo has consented to star in a film based on the heroic exploits of the Norwegian Merchant Marine which will be produced by Lester Cowan.

The Norwegian information service explained the picture, as yet unnamed, will carry a message of great significance for the Allied world.

Allied Artillery Batteries Roar In Cassino Sector

Big Guns Are Concentrated On Enemy Strongpoints In Ruins Of City

NEW CLASHES IN TOWN IMMINENT

By JAMES L. KILGALLEN
(U. S. Staff Correspondent)

NAPLES, March 27.—Allied artillery batteries thundered and roared throughout the Cassino area today, tearing huge gaps out of Nazi strongpoints and inflicting heavy casualties on the entrenched, stubbornly resisting Germans.

Gen. Sir Henry Maitland Wilson, supreme Allied commander in this theater, announced that the big guns had been concentrated against the German lines and described them as "very active." His official statement revealed that their non-stop volleys had taken a severe toll of enemy dead and wounded. At least one exceptionally large explosion was touched off in the Nazi positions by the barrage.

Two Small Attacks
Along the Anzio beachhead, Nazi troops staged two small attacks, both of which were crushed.

Infantrymen within the ruins of Cassino duelled with the enemy with small arms and bayonets while both sides apparently mustered strength for a resumption of heavy close-quarter combat.

The explosion caused by the Allied artillery shook the Nazi lines near Pignataro, four miles southwest of Cassino, when a heavy battery scored a direct hit on some explosive installation during a duel with a battery of German six-barreled mortars.

The big guns also shelled the

WASHINGTON, Pa., March 27.—(INS)—Authorities today investigated the automobile accident on the Houston-Hickory road which took the life of Robert B. Johnston, 24, of Sturgeon, and in which three other persons narrowly escaped drowning.

The car, driven by Johnston, left the road on a curve near McConnell's mill, about one mile west of Houston, and plunged into eight feet of water in Charter's creek.

Johnston, authorities theorized, was knocked unconscious in the crash. He was drowned before he could be helped from the car.

The three others who escaped were Mr. and Mrs. Louis Harrer, both about 24, of Presto, near Woodville, and Miss Wanda Luce, 20, of Langholt.

Allied Jungle Troops Battling Japs In Burma

Seek To Halt Japanese Columns Now Attempting India Invasion

ENEMY ADVANCE IS SLOWED DOWN

BULLETIN
NEW DELHI, March 27.—(INS)—Capture of an important hill overlooking the Tiddim-Imphal road by allied troops which hurled a Japanese column from that invasion route into India was announced today in a communiqué issued by Lord Louis Mountbatten, supreme commander of this theater.

By JAMES E. BROWN
(U. S. Staff Correspondent)
NEW DELHI, March 27.—Grimly-fighting allied jungle troops battled furiously today to blunt the spearheads of three Japanese invasion columns now probing into India in an effort to counter continued allied successes within occupied Burma.

The United Nations forces, already successful in slowing down the pace of the enemy advance, struggled to turn the columns back upon themselves before they can reach the level plains before Imphal, capital of the state of Manipur and prime objective of the Japanese pincers.

(In London, the Daily Telegraph reported that Maj.-Gen. Charles Wingate, who led jungle commandos on a 1,000-mile stab amid Japanese positions in 1943 during one of the most hazardous treks in history, now is in command of all air-borne troops in Burma.)

"It is these troops, dropped 150 miles behind the enemy lines in upper Burma, who recently cut the vital Mandalay-Myitkina railroad at a point midway between those two cities, the Telegraph asserted.)

Daring Thrust
British Commandos now are within some 47 miles or less of Myitkina, the principal enemy base beyond the Burma road after a daring thrust which appeared likely to

Russian Forces Reach Frontier Of Rumania Proper

Believe Spearheads Of Soviet Offensive Have Crossed Over To Rumanian Soil

FIRST THRUST INTO ENEMY TERRITORY

By NATALIA RE
(U. S. Staff Correspondent)

MOSCOW, March 27.—Spearheads of Soviet offensive forces which reached the frontier of Rumania Proper in a mighty drive to the Prut River were believed to have forced the waterway at some points today and crossed over to Rumanian soil.

Late dispatches from the front suggested that advanced elements of Marshal Ivan Konev's Second Ukrainian Army had launched the first thrust into enemy territory since Hitler and satellite forces joined in the invasion of Russia in June of 1941.

Nazi Retreat 850 Miles
The smash to the Prut, separating the Moldavian Republic and Rumania, climaxed a drive which has pushed the German forces back to the west a distance of 850 miles from the farthest point of penetration by the Nazis.

Troops of the second Ukrainian front smashed German and Rumanian forces back across the Prut along a front 55 miles long.

Nazi garrisons at Tarnopol and Kamensk-Podolsk immediately to the north were in desperate circumstances as the result of forced drives by troops of the First Ukrainian Army which encircled the two cities. The Tarnopol bastion is situated in southeast Poland, just inside the prewar Polish frontier, and Kamensk-Podolsk, to the south-east, is in the Russian Ukraine.

An early offensive by the Red army across the Prut directly into Rumania was expected. Military observers believed that the Germans would have no more success (Continued On Page Two)

Justice Maxey Speaks Sunday

Pre-War Lethargy Of U. S. Is Scored In Address At First Congregational Church

More than 3600 lives of Americans were lost at Pearl Harbor because the United States was not upon the alert, Chief Justice George W. Maxey of the Pennsylvania Supreme Court told an audience in the First Congregational church Sunday night. Chief Justice Maxey spoke upon the topic "Marching to the Sound of the Guns" and in it scored the lethargy of the nation and the refusal of the people to heed the storm signals which were raised back in 1935 and 1936.

"It took the Japanese to wake us up," said Justice Maxey, "when on December 7, 1941 they attacked Pearl Harbor. Had they attacked Australia instead, we would have continued to refuse to heed the warnings and with Australia as their base, western civilization might have perished."

Kuriles Again Bombers' Target

By CLINTON GREEN
(U. S. Staff Correspondent)

PEARL HARBOR, March 27.—(INS)—Four engine Liberators of the Eleventh Army Air Force bombed Japan's bases at Paramushiro and Uekotan in the Kuriles before dawn Saturday.

The raids were announced by Admiral Chester W. Nimitz in a press release which disclosed that a single Navy Ventura search bomber hit Shimushu, another island in the Kuriles, northernmost territory of Japan's homeland.

One American plane of an unidentified type was lost in these operations. Onkotan, 29 miles south of Paramushiro is a volcanic island 25 miles long, its width varying from four and one-half to nine miles.

Each day has something of its own that stands it out from all the rest and everyone has favorites some day they like and call the best. Some like the Sunday with its rest, and others like the mid-week time, some like the Saturdays the best they preface Sunday and the chime of church bell and the services but me I like them all I guess, although if I were asked to name the one I like the very best I think I'd name a Saturday. It marks the time when work is done and one can rest a little while the weather's damp and sixty-one.

Stilwell's Fliers Sink Jap Ships

CHUNGKING, March 27.—(INS)—Mitchell bombers of the 14th United States Air Force sank two enemy ships and hit rail installations in southern Asia in week-end assaults, a communiqué said today.

The bombers destroyed rolling stock at Vinh, Yenky and Hoanmai in Indo-China. Installations at Thanh Hoa received hits. Liberators attacked a motor pool at Manghin on the Burma road.

On March 26, Mitchell bombers attacked shipping and harbor installations at Baki Bay, Hainan Island, sinking a 1200-ton vessel and another of 1000 tons. The planes damaged the dock, rail-tracks and loading equipment.

U. S. planes received minor damage only from small arms fire.

Welsh Tea Party Honors Justice

Chief Justice George W. Maxey and the audience that heard him Sunday night in the First Congregational church were treated to an old-fashioned Welsh tea party following the address of the chief justice. Arranged by and directed by the Dorcas class of the Sunday school the guests were given tea and cookies. The tea party was by way of being a reception to the chief justice.

RUSSIAN FORCES REACH FRONTIER OF RUMANIA PROPER

(Continued From Page One)

In holding the Russians on the last bank of the Prut they did in attempting to prevent the Soviets from crossing the Danube and the Bug rivers.

Soviet guns were drawn up to positions from where Russian shells for the first time in the conflict against Hitler and his satellites can be hurled on soil of the enemy.

The westward surge to the banks of the Prut resulted in Soviet capture of Beltsy, Bessarabian rail junction, 27 miles northeast of the Rumanian rail junction of Jassy, Glodeni and Balotina. The latter three all are district centers of the Oldavian Republic. Glodeni lies 18 miles west of Balotina, 18 miles south southwest of Balotina and Balotina 28 miles southwest of Balotina.

In surrounding Tarnopol the Kamenski-Podolsk the Soviets killed some 10,000 Germans in fierce tank and infantry engagements.

Soviet troops crossed the Seret river north of Tarnopol and linked up with forces which had outflanked the city from the south. Pierce artillery and mortar fire routed numerous German detachments in the area and Soviet troops began the gruesome work of exterminating the Nazi garrison in Tarnopol. The drive resulted in a campaign to drive the Nazis out street by street.

bring about a vast increase in fighting throughout the region inasmuch as the enemy is believed ready to support his key outposts to the limit.

The most advanced Japanese column meanwhile hurled itself against key British positions after having withdrawn with heavy losses from an earlier futile attack.

Headquarters observers pointed out that the enemy may succeed in driving a wedge across the Manipur-India road, but asserted that this would constitute merely a "paper victory." Such a gain, it declared, would lack significance as long as the allies retain possession of the two highways leading into Imphal.

areas surrounding the continental and Des Roses Hotels, now the principal enemy stronghold within Cassino.

Shell Castle Hill

From the Eighth Army front on the Adriatic sector it was reported that the Germans were less active than they have been for some time.

During the night Germans in the Cassino area spasmodically shelled Castle Hill which is firmly in Allied hands. Considerable enemy artillery fire was disclosed at Portella northeast of Cassino and several German planes appeared over this area.

Warhawks twice bombed German ammunition dumps at Fontana and Liri 15 miles northwest of Cassino.

On the strategic hills flanking the city, however, Allied and German detachments fought with unbroken fury for possession of key slopes, now covered by a thin coating of snow.

German mortar and artillery batteries again concentrated on the main railway station, held by dogged New Zealand infantrymen, subjecting the entire area to a lengthy barrage. Allied gunners hurled a number of volleys into one of the principal Nazi strongpoints along the southwest rim of the city and shattered an enemy tank concentration which appeared to be forming ranks for a heavy counter-attack.

Youthful bicycle riders were out in force over the week end as the spring weather made its appeal. These bike riders should remember that traffic laws were made for them to observe as well as motorists, and they should aid in maintaining traffic safety.

Saturday afternoon, a pair of robins were quite active in a couple of yards in the 600 block of East Washington street. They gathered mud and other material to make their nest in the tree nearby, and enjoyed the pastime of "extracting" large earthworms from the sod.

HOOR OF GREATEST ALLIED WAR EFFORT NOW APPROACHING

(Continued From Page One)

United States and subsequently re-broadcast in 22 languages to almost every nation on the face of the earth.

Warning industry that the "big push" to open a second front will be designed to catch the Nazis off-guard, Churchill explained:

Many False Alarms

"There will be many false alarms, many feints and many dress rehearsals" before the main invasion strikes. This he indicated will be a part of an intensive war of nerves to exhaust Nazi anti-invasion forces before the Anglo-American forces strike in full strength in western Europe.

In his 50-minute talk, Churchill also stressed these points:

1—Allied air power—with American strength now even greater than Britain's—will hit the enemy with terrible fury in the months to come.

2—The battles at Anzio and Cassino in Italy will be won and Rome liberated from the grip of the Nazis.

3—Britain will fight to the day of victory with America in the Pacific.

U. S. Speed In Pacific

4—So great has been the speed of American advance in the Orient that Japan may collapse sooner after the defeat of Hitler than he had expected earlier.

5—American leadership in that theater has been accepted by the British in the same vein as the United States accepted the empire's leadership in India.

6—Plans for Burmese operations were made at Quebec last summer and now are being carried out under the direction of Lord Louis Mountbatten. In this connection, Churchill promised to make a full report on this subject later.

7—A large British battle fleet has been sent to Indian waters to meet the Japanese navy, if it should "turn westward" after having declined battle against the Americans.

Pledges Gratitude To U. S.

In addition, the veteran British war leader pledged the undying gratitude of the empire to the United States for America's aid in this war.

Churchill was loud in his praise of the work of the red army which he declared, has played a leading part in Hitler's undoing. The 900-mile Russian advance overland from Stalingrad to the Rumanian border, Churchill said, not only has "torn

Income Tax Forms Now Being Mailed

April 15 Is Deadline For New
Income Tax Declarations
By Tax Payers

PITTSBURGH, March 27.—The Bureau of Internal Revenue's office here will mail today approximately 200,000 forms for filing declarations of estimated 1944 income taxes. They are for the persons who filed estimates last year because they are not subject to a withholding tax on wages or are making more than a specified amount.

Collector of Internal Revenue Stanley Granger said declarations must be filed by April 15 by persons making more than \$2700 a year, married persons making in excess of \$3500 and those persons making more than \$100 from sources other than salaries subject to withholding taxes.

Accompanying the filing of the estimate must be at least one-fourth of the estimated tax. The tax may be paid in full or in equal installments quarterly.

A taxpayer has the right to file an amendment at the close of each quarter, making it possible to file as many as four estimates during the year. Adjustments will be made if a tax has been overpaid by the end of the tax year.

Freak Accident Kills Watchmen

SPRINGFIELD, O., March 27.—(INS)—Railroad officials today launched an investigation into a freak rail accident Saturday night which cost the lives of two watchmen employed by the Dayton Rubber company.

The victims were George Duffy, 78, and Martin McHugh, 65, both of Springfield. The men were fatally injured when steel girders protruding from a New York Central freight train ripped into the rubber company's two-story Springfield warehouse.

Springfield police said the train was carrying structural steel which was fastened to a gondola car with wooden shoring and wire. The shoring apparently came loose and two of the huge girders tipped.

Shoots Family; Tries Suicide

COLUMBUS, O. March 27.—(INS)—George Pierce, 46, a veteran of two wars, today was near death in St. Francis hospital with two self-inflicted bullet wounds, according to deputy sheriffs, after he shot and killed his estranged wife, Lorraine, 49, and his 16-year-old son, Homer, and seriously wounded a daughter, Leatrice, 18.

Coroner Edward E. Smith, who returned a verdict of murder and attempted suicide, said the man, separated from his wife by a court order, returned to the farm home a few miles east of Columbus just as the family was sitting down to the Saturday evening meal.

As he entered, Mrs. Pierce stood up and Pierce shot her, deputies said. Other children present told them. His son, Homer, then rushed to his father in an attempt to grab the gun and was fatally shot in the neck and chest. Leatrice was shot twice, the first bullet entering her back and travelling through the stomach. Pierce then turned the 45-automatic service pistol on himself and fired two shots below his heart.

Five other younger children were in the house at the time of the shooting. They rushed screaming from the house and later were taken to the home of a neighbor.

blocks of humanity. Women and children were reported among the victims.

The Germans, press accounts said, barricaded the streets and arrested 700 men and 400 women. Those unable to produce identity papers were shot immediately, it was said, and the remainder taken to a station square where they were held in a ring encircled by machine guns.

The Germans were reported to have issued a statement that 10 hostages must be shot for each German killed.

The 300 selected for execution were driven in trucks to the Colosseum and the remainder taken to prison. Some held prisoners were reported brutally beaten with rifle butts and others were said to have been shot when they resisted.

Inside the Colosseum the elected victims were machine-gunned in groups.

Subsequently a state of siege was reported proclaimed in the eternal city.

JUSTICE MAXEY SPEAKS SUNDAY

(Continued From Page One)
nitions by the United States to any other nation, we practically invited Hitler to attack Poland and France. That law really meant we couldn't help Britain or France for we were the only two countries that could have purchased from us the German Navy being what it was."

Justice Maxey scored the lethargy of the United States to prepare while there was still time to do so without wasting lives. His opinion was that if the United States had prepared in time there never needed to have been the present war with its terrific cost in lives and money. "Before this war is over we may lose a million of our young men" said he. "Had we spent a time where we now are spending \$50,000 there would be no war today."

Guest Of Minister
Chief Justice Maxey spoke in the First Congregational Church at the request of his long time friend, Rev. Thomas J. Jones, pastor. In addition to the church congregation there were present many city and county officials, and members of the Lawrence County Bar Association.

The service opened with devotionals by Rev. Jones and congregational singing directed by Griffith Thomas, Judge W. Walter Braham introduced the guest of honor. Following his address Councilman D. O. Davies brought the greetings of the church and Judge John G. Lamoree the greetings of the city. Mayor John F. Haven was introduced and expressed his appreciation of Judge Maxey's presence.

Craft Activities At Camp Reynolds Station Hospital

GREENVILLE, Pa., March 27.—Craft activities at the Camp Reynolds station hospital, in connection with the new reconditioning program for convalescent patients, is being planned to follow the natural inclinations of the patients rather than to teach them a new hobby in which they have no real talent or interest.

Mrs. Ann Byrne, Red Cross recreation worker, said that the patients were divided into groups with some being more interested in making the tools, plans and designs for others to follow and work with rather than turning out the finished product.

An example of the extensive range of the craft activities can be seen in two projects now going on in which one group interested in fishing have been spending many hours working out plans and experiments for new types of flies in different types of fishing. Another patient has designed a special loom for the weaving of intricate patterned fascinator hats. Later the wooden looms will be duplicated by men interested in wood work, for the instruction of other patients in fascinator making.

At present such articles as lapel pins, basket weaving, wallets, cigarette cases, made of leather, clay modeling, sketching and loom weaving are being turned out, at the capacity filled classes.

Man Being Held After Gun Battle

PITTSBURGH, March 27.—(INS)—A Glassport man, identified by police as John A. Mraz, 47, was being kept under a close guard in a Pittsburgh hospital today after being wounded when he elected to shoot it out with authorities as he left the ransacked home of an army major.

Police, tipped by neighbors who knew Major R. D. Gaylor is in the service and that Mrs. Gaylor is studying at Latrobe, were waiting for the thug as he left the East End home.

Two warning shots were fired in the air when he refused to give himself up. The thug fired one shot at the police and Patrolman Thomas Patten wounded him with a shot in the hip.

Authorities said they found \$132 in the thug's clothing.

Beware Coughs Following Flu

After the flu is over and gone, the cough that follows may develop into chronic bronchitis if neglected. Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

WASHINGTON REPORT

(Continued From Page Four)

So why don't you play on that theme — "It's OUR turn now?" Words of one syllable and good ones are these. There's almost a Jacksonian candor about it.

So, go on and say it. And don't apologize for the demand. And don't go about trying to explain why it's time for your turn. Fact is you haven't caught the presidential ball for so long you don't know how to reach for it when it is headed your way. And it is headed your way now.

Leaders Are Capable

You'd better keep your eyes on that ball. Don't let me hear you declare, as many Republicans are declaring, "We're for any man who can beat Roosevelt." That's not fighting talk!

You've got some smart women in your organization, Mr. Spangler. Of course, you know this and possibly the knowledge inspired you to call on the "female sex," to come on in and do your work. That Marian Martin, your vice chairman, is about as wise and alert a woman as I've ever met in Washington. She's witty and pretty. Wears red hats and a bright smile, too. Anne Wheaton, who does the women's publicity, is another knowing and charming woman. She likewise knows what hats to wear.

I do think, since we are speaking freely, that your National Federation of Women's Republican Clubs needs brightening up. They can't keep on talking about "the problems that confront us." That's a lazy generalization for any struggling political speaker to use in a campaign year. But I'm tired of hearing it. The Democrats used it years and years ago.

Speaking of Democrats, getting the beautiful Dorothy Vredenburg in as secretary of the Democratic national committee was what I call "pulling a fast one." I suspect the Democrats are planning to use Mrs. Vredenburg, her southern charm and her millions to offset the snap of Miss Marian Martin.

Anyhow, Mr. Spangler, you can't say I've not been helpful. You've said "it's up to the women." Remember, I've given you a slogan. Say it after me—"It's OUR turn now!"

THE PARENT PROBLEM

(Continued From Page Four)

teaching, I have missed because of personal illness only two and one-half days.

Naturally you can see that I have not learned to type well yet, but I am pecking on, and writing to about 30 of my former second-grade pupils who are now scattered everywhere in the service of our country. I count it one great privilege to hear from them, and to read the familiar words, "Just keep on writing."

As I have said before in this column, many mothers who taught before marriage are returning to teaching after their children are pretty well grown. Even the child in primary school who has hours in school about the same as those of his teaching mother, can be pretty well cared for.

In various parts of the United States school principals and superintendents have spoken enthusiastically to me about the mother returning to teach. They seem to have an understanding of children that some unmarried women don't have. Of course, some of these mother-teachers are handicapped because they may lack training in the more modern teaching methods. However, a few of them are going back to school, even taking extension courses.

Free Courses

I wish more mothers would enter the free courses offered in their respective communities by the Red Cross on nutrition, first aid and home nursing, for valuable training not only during the war but at all times.

Some mothers are going to night school and college, or pursuing wise reading courses at home (with the advice of the local library) just to be more alert mentally.

When a parent studies in the evening while her son or daughter does, the child is inspired to work harder at his lessons, thanks to her good example. Fortunate the home all of whose members go to school, and all of whom are continually trying to learn more.

Didn't you like what that teacher wrote about her keeping in touch with all those boys in the service who once were pupils of hers in the second grade? Ever so many of the older teachers are doing this. They are doing more to help win this war than they know. Shut-in mothers are writing me of the pleasure they receive corresponding with many of our patriots. They talk of the pleasure they get from it. See also the pleasure they give.

THE GREAT GAME OF POLITICS

(Continued From Page Four)

ment just at the moment when we were considering another setup. For another, there was the awkward announcement by Mr. Roosevelt (plainly embarrassing to the British) about the division of the Italian fleet. There is further the position of the Russians and British toward the post-war Germany without bothering to get our views. Then there is the announcement that the President has reached a decision as to the part the French Committee is to play in the government of France after its liberation—a decision about which the British claim to be in the dark—though certainly they are entitled to be consulted. Finally, there is our decision to build an Arabian oil pipeline through British-mandated territory without consulting the British.

ADD ALL this up and it bears no resemblance to the "complete understanding" which seemed to be the happy outcome of Moscow and Tehran. It is not, praise be, affecting the conduct of the war, but it darkens somewhat the peace-making and post-war periods. So clear is this that from various quarters recently critical attacks have been made on our foreign policy or rather the lack of it. Mr. Walter Lippmann asserts that our foreign policy is "not sufficiently alert, lucid, consistent and efficient." There is ample evidence to support this charge and it is hard

to see how harm can come from citing these widely known facts. On the contrary, good may result. But there is no use, as the left wingers are trying to do, blaming things on Mr. Hull.

THE responsibility lies squarely on the President. It is he who makes our foreign policy, and neither this State Department nor a reorganized one will change that situation so long as he remains in the White House. The real reason our policy is weak, vacillating and muddy is because this is an election year and Mr. Roosevelt is a candidate for reelection. That is the big handicap. It handicaps him in framing foreign policy and it handicaps him in domestic matters too. It enfeebls his resolution and it beclouds his judgment. It is a great pity, but apparently nothing can be done about it. But another Stalin-Churchill-Roosevelt conference might clear up a few of what seems totally unnecessary misunderstandings.

NEITHER Mr. Hull's recent 17-point statement nor his forthcoming radio talk will do that. They will make more generally understood the basic points of our policy and our attitude toward certain specific situations. But the atmosphere can usually be cleared only by the President. He can, if he chooses, put an end to the things that make for friction and misunderstanding between ourselves and our Allies by a few firm decisions. The difficulty with that as with everything else at the moment is that his power of decision is more or less paralyzed by his candidacy for a fourth term.

Report Eden May Relinquish Some Of Responsibilities

LONDON, March 27.—(INS)—Political quarters in Britain reported today that Anthony Eden may relinquish his positions as foreign secretary.

Diplomatic circles said that Prime Minister Winston Churchill was considering the appointment of Viscount Cranborne, former parlia-

mentary private secretary, in Eden's place to relieve the latter of departmental responsibilities.

Eden would retain his important post as leader in the House of Commons and also continue to sit as a member of the war cabinet.

A definite decision on Eden's departure from the foreign office has not been reached, however, and it is held that he will continue to hold the post until the most pressing military and diplomatic matters are settled.

Articles written by ASTP cadets before they left the campus will be included. Army cadets also contributed their conceptions of freedom to an article by sophomore Nancy Williams, Pittsburgh.

Many Gains Made In County Contest

Favorable Weather Of Sunday
Gives Impetus To Pre-Easter
Campaign In Churches

The Sunday schools participating in the "victory" pre-Easter increase campaign which is being sponsored by the Lawrence County Sabbath School Association, responded to the favorable weather yesterday and accumulated many additional points. However, as the good attendances were mostly general, few changes were recorded in the standings of the various competing Sunday schools.

In the First, New Castle, Group the First Presbyterian kept in the lead with the Third U. P. edging a little nearer than the previous Sunday. In the Second Group, the Central Presbyterian is in the lead with the First Christian not far behind. In the Third Group the Mahoning Methodist has quite a lead over the second place Primitive Methodists, and in the Fourth Group the St. John's Lutheran still remains out in the front by a wide margin over the Savannah Methodists.

The county Sunday schools outside of New Castle, also had a good day and their reports will be given later in the week.

The Second U. P. Sunday school continues the splendid church attendance record. This Sunday school has the habit of remaining for the morning worship service, as for the past few years they have excelled in this respect, in similar campaigns. Only one Sunday remains before the climaxing Easter Sunday and added effort will be put forth by all of the Sunday schools in this brief remaining period.

Below are the standings to date:

HOSPITALITY IS OFFERED

Chicago, Ill.

Mr. Fred L. Rentz
c/o The New Castle News
New Castle, Pennsylvania
Dear Mr. Rentz:
We see by The News, which we receive every day, that quite a few of the young men from New Castle are being sent to the Chicago area for training with the Army and Navy. We would like them all to know that the latchstring is always out at 522 Surf street, and would appreciate it if you would help us convey the message to them. If they are ever in the "big city" with time on their hands, we will be glad to have them drop in for a few hours. We are following Richard's account of his experiences with a great deal of interest and hope that he will be able to continue his fine job of reporting.
Kindest personal regards,
Yours sincerely,
Patricia Cubbison.

ARE JAPS SO DUMB?

NEW YORK—(INS)—It's quite a trick if you can do it, but apparently the Japanese people actually believe that their small wooden ships, which attempt to carry supplies to their troops in the south Pacific, "frequently charge into enemy planes." Will Eliminate Termination Dates On Food Stamps

WASHINGTON, March 27.—(INS)—Col. Bryan Houston, OPA rationing chief, announced today that all validity termination dates will be taken off food ration stamps beginning May 20 when the first series of food coupons in Book Four were scheduled to expire.

Hereafter, Houston said, stamps for processed foods, meats, fats, oils and all other foods under the rationing program will be good indefinitely.

Houston explained the action was taken to eliminate food hoarding which was brought about by housewives rushing to stores near the stamp expiration dates to use up stamps whether they needed the food or not.

The removal of definite termination dates of food stamps brings this part of OPA rationing in line with similar changes already adopted for shoes and sugar.

The OPA rationing executive said that the success of the indefinite validity plan with shoes and sugar in eliminating tag end buying sprees and removing serious drains on shoe and sugar supplies led OPA to adopt the same system in the case of food.

Chaplin Begins Showdown Phase Of Court Battle

LOS ANGELES, March 27.—(INS)—Charlie Chaplin today began the most fateful week of his spectacular life—the showdown phase of his trial on Mann act charges.

Before the week is out all of the cards, those held by the government and those held by the defense will have been laid on the table—for the federal court jury of seven women and five men to see and determine whether the comedian "transported" his one-time protégé, Joan Barry, to New York for "immoral purposes."

The verdict that is to follow, either late this week or early next, is for Chaplin an even greater stake than the fame and millions he won in Hollywood. Both his liberty and his entire future are involved.

Sees Fast Trip U. S. To Orient Following War

NEW YORK, March 27.—(INS)—President Juan Trippe of Pan American World Airways predicted today that shippers eventually will carry passengers and freight to the Orient from the west coast in 23 hours, and from the Atlantic seaboard to Europe in 10 hours.

Trippe declared that the dazzling success of our warplanes blinds us to their inadequacy in meeting the challenge of peace.

"Our bombers," he said, "are designed to transport and deposit a heavy but concentrated load of bombs. To continue to utilize their weight-carrying capacity for peacetime transport is impractical. Even the present military cargo types will be inefficient for commercial use. They will be but stop-gaps and must be succeeded by new, more efficient commercial types."

Burlesque House Orchestras Will Get Vacations

DETROIT, March 27.—(INS)—Musicians who work in the pits at Detroit burlesque houses are entitled to two weeks vacation to gain relief from "long hours, a smoke filled theater and dust created by strip tease performers," the War Labor Board ruled today.

The board said that the musicians complained that, among other things:

"When a teaser begins her work in a floor-length skirt, she twirls it on the stage in such a way that a befouling cloud of dust and talcum hits the pit and everybody from bullfiddle to drums comes up choking."

LIBERTY SHIP AFLOAT AFTER 3 WEEKS OF FIRE

NEW YORK, March 27.—(INS)—A Liberty ship that remained afloat through three weeks of fire and explosions has been towed back into New York harbor.

The ship, the J. Pinckney Henderson, was loaded with glycerine, oil, magnesium and other flammable cargo when it collided in a fog at sea with a tanker carrying high octane aviation gasoline. Flames spread so rapidly that only three of the Henderson's crew survived.

Fire continued to rage on board until it had burned itself out, when the ship was brought back to New York.

Maritime commission inspectors examining the Henderson pronounced her the most completely gutted ship they had ever seen—but added that her welding showed no cracks. They were frankly amazed that the craft had held together through such an ordeal.

Army Uses Jap Stores Found In Marshall Islands

By HOWARD HANDELMAN
(U.S. Staff Correspondent)

KWAJALEIN ISLAND, Kwajalein Atoll, the Marshalls—The crude one-cylinder Jap diesel engine roared away today with all its seven horsepower, put into working trim again by mechanics of the army engineers.

"What you gonna do with it?" someone asked.

A staff sergeant, formerly a farm boy from Minnesota, was stumped by the question. He didn't know, but

"Well find a job for it someplace around here."

The captain commanding a company of an engineering battalion, found a cache of Jap batteries, ordinary automobile batteries just about like the ones they sell in service stations in the states. Each battery now powers a six-volt electric light which can be kept on after 10 o'clock, when the regular electricity is shut off.

The motor pool, where all the automotive mechanical work is done, is stocked with a heavy supply of Jap stuff, ranging from mine tanks of oxygen used in welding to the very tin and lumber from which the garage shed was made.

Mechanics have gone over every Jap truck and motor no the island to dig out parts which can be used on American motors. They found plenty.

The battalion motor pool found 25 brand new Bridgestone truck tires, heavy rubber tires that can be used on American vehicles.

Biggest conversion job so far is the marine railway, made entirely of Jap track. The railway runs into the lagoon so that fairly large vessels can be dragged right up to shore.

Three Are Drowned At Philadelphia

PHILADELPHIA, March 27.—(INS)—Police today sought to recover the bodies of two youths and a girl who were swept to their deaths over the Fairmont Dam last night in the Schuylkill river near the Philadelphia Aquarium.

Joseph Osowiecki, 16, leaped into the torrent as his canoe was sucked toward the brink by the swift current fed by snow and ice thaws and was dashed to his death on the rocks at the bottom of the dam.

The other two victims, yet unidentified, were a sailor and a girl who jumped into the swollen river in a rescue attempt.

Mine Explosions

Eight More Men Overcome In West Virginia Mine After 15 Are Lost

SHINNSTON, W. Va., March 27.—(INS)—Additional explosions were feared today at the Katherine Coal Company's No. Four mine where 16 members of a fire-fighting crew were killed Saturday and eight more men were overcome by poison gas yesterday.

Jesse Redyard, chief of the West Virginia department of mines, said that he feared further blasts in the pit and ordered all but rescue workers kept a mile away from the mine entrance.

The eight who were overcome by fumes were rescued from the pit by ropes tied to their bodies before they entered the mine in an attempt to seal off the flames which raged after the first explosion almost as great as that which killed the 16 men.

Among those overcome was E. Y. Mow, inspector of the U. S. Bureau of mines in the central West Virginia district, who had been directing efforts several hundred feet inside the 3,000-foot slope to seal off tunnel flames.

to its 340,498 employees, its 222,602 stockholders, and to the public

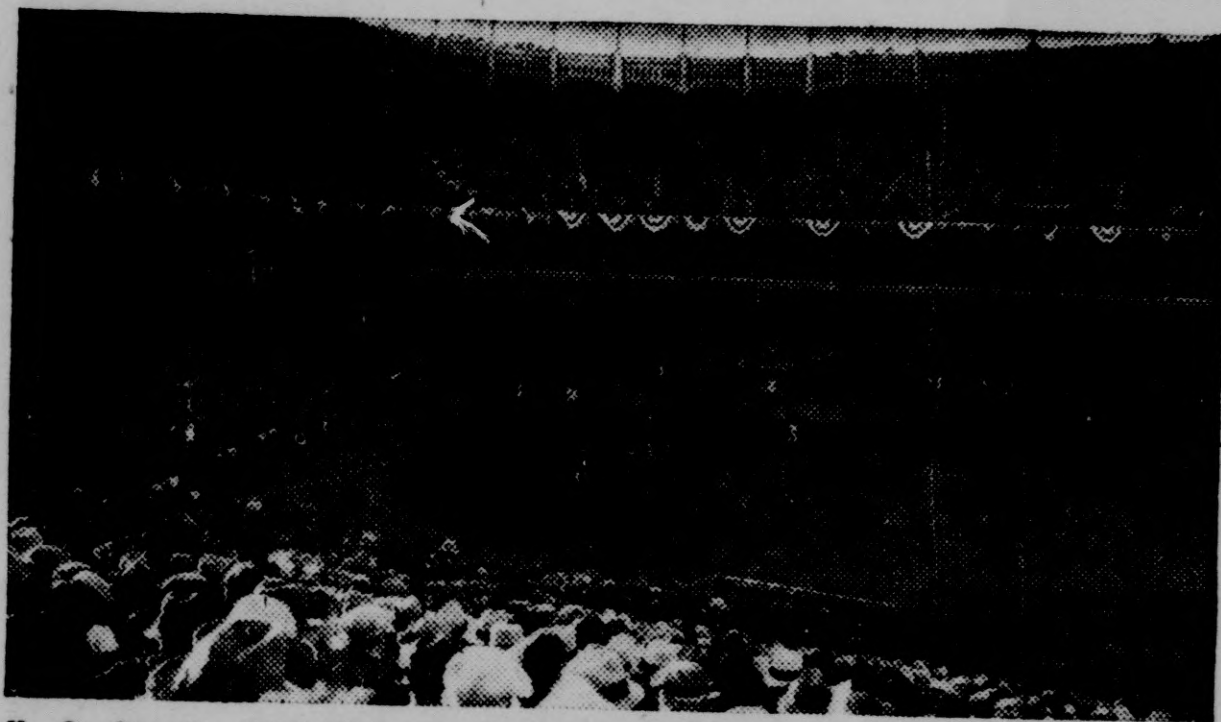

U. S. Steel's employees averaged 340,498 in 1943. They established in 1943 an all-time ingot production record. 100,000 men and women of U. S. Steel are in the armed forces. U. S. Steel's 222,602 stockholders would fill three Yankee Stadiums. For this army of owners, U. S. Steel earned in 1943 the smallest return on investment (3.97%) in any year of large production. Rising costs in 1943, pushing against price ceilings, resulted in lower net earnings and therefore in lower taxes. There were \$8 million less for future needs than in 1942 (\$53 million less than in 1941), despite a substantial increase in receipts in 1943.

UPWARD TREND IN DAY'S MARKET

Steady Undertone In Trading
During Morning Is Seen
In Trading

NEW YORK, March 27.—(INS)—The stock market had a steady undertone today, with most issues showing small fractional gains from last week's close. A few issues showed wider price changes on special considerations, but these failed to have much influence on the rest of the list.

Trading was quiet, with sales running below a million shares. The market continued under the influence of technical factors. Belief that the second front may be near in Europe forced many traders to the sidelines to await developments.

Aircraft manufacturing issues and chemicals had fair support, with G. L. Martin rising more than a point to a new 1944 high and Du Pont showing a similar gain. Park & Tilford also hit a new top for the year on a somewhat smaller advance, but the rest of the liquor group was quiet.

Holding steady to firm were the steel, oil, motors, rails and communications. Utilities had an easy undertone.

American Car & Foundry was weak in the rail equipments, off 2 points at one time. American Air Lines lost a point on a slightly lower earnings report.

Bonds were steady in quiet dealings.

Long Terms Given Men Who Held Up State Policemen

Cards Still Appear As Cream Of National League

Sports Ramblings

Monday's Wash—

Those new excise taxes which go into effect April Fool's Day will worm their way into the sports field for what should be a sizeable chunk of cash. A glance at the new chart shows that admission ticket taxes carry a 1 cent for each 5 cents or major fraction thereof. Tickets sold outside of the box office will net Uncle Sam 20 per cent. Membership fees to golf clubs, athletic organizations as well as non-athletic clubs benefit the government 20 per cent. Billiard and pool tables and bowling alleys will be taxed \$20 per year for each table or each alley. The pool and alley guys are safe until July 1. In short, Mr. and Mrs. Gus Phan will have to pay a bit more to enjoy war-time sports . . .

Craig Wood's 271 Wins At Durham

Negotiate 72 Holes In 12 Under Par; Byron Nelson Second, Hines Third

DURHAM, N. C., March 27.—(INS)—Craig Wood, of Mamaroneck, N. Y., took his place in the winners' circle today following his victory in the \$5,000 Durham Open golf tournament which he led from start to finish.

The title meant \$1,000 in cash to him, an award which he said he would convert immediately into war bonds.

Wood negotiated the tournament's 72 holes in 271 strokes, 12 under par the way they figured the thing. His final round was a two-under-par 68.

Second place went to the money-player, Byron Nelson, of Tuleo, O., who was three strokes behind with 274. He took down \$750. Jimmy Hines, of Amsterdam, N. Y., scored 276 for third place and \$550.

Fourth place honors were shared by Johnny Revolta, of Evanston, Ill., and "Jug" McSpaden, of Philadelphia, each of whom wound up with 280.

CINCINNATI EXPECTS STARR TO REPORT

BLOOMINGTON, Ind., March 27.—(INS)—The Cincinnati Reds still were not full strength today, but Manager Bill McKechnie said he expected his players would give a good account of themselves in the exhibition game against the Cubs tomorrow. He said Pitcher Ray Starr probably would be on hand in the next day or so. Pitcher Elmer Riddle also was due in camp shortly.

Frank Crosetti To Stay On Job

Infield Ace Quits For Duration; Yanks May Lose Pitcher Bonham

NEW YORK, March 27.—(INS)—The player-strength of the New York Yankees was further diminished today with the loss of infielder Frankie Crosetti and the probable acceptance in the army of Pitcher Ernie Bonham.

Crosetti, who Manager Joe McCarthy yesterday said he had decided to stay in his Stockton, Cal., war job, and abandon baseball for the duration. The veteran infielder, banked on to play 75 games this year, had been with the Yankees since 1932.

In another wire from Sacramento, Cal., Bonham stated he had been accepted by the army pending a final X-ray examination. The pitcher was laid up with a back ailment in 1941, and if the X-rays taken at that time show proof of the ailment, he will be deferred.

Crosetti's decision to retire leaves the Yankees with an infield composed of First Baseman Nick Etten, scheduled to be drafted; Shortstop Oscar Grimes, a regular; Second Baseman George Stinnett, 4-F; and Third Baseman Don Savage, ailing with a sore wing.

St. Johns Passers Nip St. Joes, 42-41

St. Johns remained in the fight for Catholic Reserve league honors by edging St. Joseph's, 42-41, last night on Catholic Center floor.

Clecone, Bashero, Gabriel and Isaac were high men for the winners with eight points apiece. Krueger, who me-hed 17, and Blader, who accounted for 14 markers, featured for the losers.

PIRATE-CLEVELAND EXHIBITION OFF

MUNCIE, Ind., March 27.—(INS)—Manager Frankie Frisch today once again hoped for an opportunity to give the Pittsburgh Pirates an outdoor workout. Yesterday's inclement weather forced abandonment of the inaugural exhibition game with Cleveland's Indians.

OFF DUTY for an hour, two Yanks try their hand at fishing off the stern of a landing craft somewhere in the South Pacific. The Yanks are Technical Sgt. K. Bohler, left, and Technical Sgt. W. Emerson. (International)

HERE AND THERE IN SPORTS LAND

Billy Miller, who hails from Lawrenceville, the same place as Fritz Zivie, former welterweight champion, hopes to break into the big purse crowd with a defeat over Loli Costantino at Pittsburgh one week from tonight.

Corporal Harry Cook of East Winterville, well known fisherman and hunter, returned today to Fort Belvoir, Va., after spending a seven days furlough with his parents. Mr. and Mrs. Amos Cook of Winter Avenue, Jimmy Dunn, former local resident and Director of Cleveland fighters, is enroute from Los Angeles to the east on business.

"Rosy" White and other fish protectors, have issued an appeal to fishermen to not fish for suckers in streams where trout have been placed. All Lawrence county trout streams have been stocked. Stocking of streams in Mercer county are under way.

Junior Loop Playoff Starts At Y Tonight

There will be a lot of basketball action on Y.M.C.A. floor tonight. Before the Epworths and Shenango Pottery start their series, the Junior Church loop champs the Epworths and Highland, start their three-game playoff. The opener is listed at 6:15 o'clock.

The league closed Saturday with four exciting games. First Presbyterians walloped Croton, 50-16; Third U. P. setback Epworth, 29-23; Highland pasted Trinity, 41-27; and First Christians routed Central Presbyterian, 34-1.

Walsh, Buc Pitcher, Called To Service

PITTSBURGH, March 27.—(INS)—The Pittsburgh Pirates' baseball club announced today that Pitcher Jim Walsh of Dunmore, Pa., who was purchased from Albany, was called to service by the Army just as he was about to report for spring training.

Writing from the mechanized cavalry training station at Fort Riley, Kan., Walsh reported that he is one of four brothers in uniform, including Paul at Camp Davis, N. C., Eugene in Philadelphia, and Edwin at Camp Robinson, Ark.

Potters-Epworths To Clash Tonight

Rivals Start 3-Game Series For City Crown On Y Court At 8:30

Basketball here moves closer to the finish line tonight with the start of the Shenango Pottery-Epworths three-game series for the city crown.

The blue ribbon event is scheduled on Y. M. C. A. floor. The foes start their battle at 8:30 o'clock following a preliminary at 7:30 o'clock between the Castles and a quint to be selected later in the afternoon.

Shenango Pottery last week annexed the Industrial league championship by whipping the Johnson Bronze twice and hopes to grab the remaining cage honors in the city.

Epworths Top Ranking
Playing on their favorite floor, the Epworths are expected to give the Potters a run for their money. The Eps, Church loop title holder, snared the gonfalon by sweeping both ends of the race. After capturing 10 in a row during the first half, the Eps duplicated the feat, putting together 10 more victories in the last half.

Guido Santangelo, who wrecked the Bronzers with his sensational one-handed and overhead flips will be a marked man. "Bus" Davis, versatile center whose play was hampered in the Indus series by illness, is ready to resume his point making. Ev Laithren, the Potters' cool-headed guard, figures to be another prominent figure.

The Eps have an array of stars. Fred Wimer, the Ne-Ca-Hi center, joined the champs after the "Canes" finished the season and has strengthened the club tremendously. "Zek" Wainio, a cage vet, ranks with the deadliest shots in the city. Eddie Nahas, Shenango Township high's mentor, adds savvy to the club with his aggressive play. Stutzinger, Ward and Reed round out a talented six-man unit.

Fans should see a series as thrilling as the recent Indus playoff.

Williams Choice Over Joe Peralta

PHILADELPHIA, March 27.—(INS)—Trenton's hard-hitting Joe Williams enters the ring tonight as a two-to-one favorite over Mexican Joe Peralta of Tamaqua, in a scheduled ten-round wuadup at the Quaker City Arena.

The Jersey jolter is favored by virtue of two straight wins, including a one-round knockout over Philadelphia's Ellis Phillips, and a decisive thrashing he meted out to Leo Francis in Trenton.

However, the leathery-skinned Peralta can also hit as well as take for he stood up against the blows of Lightweight champion Bob Montgomery and Chalky Wright, former featherweight king. Twice Peralta felled Montgomery to the limit, and he beat Wright on one occasion.

St. Vitus Cagers Nab Two Wins

St. Vitus grabbed a pair of Catholic Reserve league decisions at the expense of St. Vitus Mission, 50-37 and 34-23, last night on Catholic Center floor.

Conti and Bullano topped the winners' scoring list in the opener. Wellman was the losers' standout with 17 points. In the nightcap, Fair and Conti spearheaded the St. Vitus attack while Wellman continued his sensational play for the losers, ringing 14 more points.

Madonna was awarded a forfeit from St. Michael's when the latter failed to field a team.

ST. VITUS' OPS 16TH
St. Vitus grade school flippers scored their 16th consecutive win by whipping Madonna 62-20 on Catholic Center floor. Joe Fuleno and Pete Biondi starred for the winners with 13 and 12 points. Banaski starred for the losers with 12 markers. St. Vitus would like to book games with any team up to 14 years of age. For games call 4393 and ask for Tommy.

CAIRO, Ill.—The St. Louis Cardinals went into their second week of spring training today "tuned up" by the first win of the season—a 10 to 3 victory over ex-Cardinal Capt. Jimmy Brown's fourth ferrying group army team from Memphis.

TIGERS-SOX EVEN

FRENCH LICK—The Chicago White Sox returned to French Lick from Evansville, Ind., where they evened the two-game series with Detroit with a 10 to 4 victory, and immediately began pointing for their exhibition Wednesday with the Cubs. None of the Tigers' four runs was earned.

GIANTS LOSE 3-1

LAKEWOOD, N. J.—The Giants were off on the wrong foot today in the wake of their first training camp game. Jersey City trimmed the National leaguers 3-1 before 1500 fans who were lured out by the warm sun at Ocean County park here. Ace Adams, the Giants' relief pitcher who set a modern baseball record last year by participating in 70 games as a fireman, signed his contract after a brief interview with Manager Mel Ott.

Phillips '66' Quint

National AAU Titlist

DENVER, March 27.—(INS)—The Phillips "66" Oilers of Bartlesville, Okla., were jubilant today over their second straight national A. A. U. championship captured Saturday night when they defeated the Denver-Across Legions, 30 or 43.

The Oilers were the first team to win the national crown two years in a row since the Diamond D-X Oilers of Tulsa, Okla., turned the trick in 1933 and 1934.

Date Of Special Session May Be Presented Today

Governor Martin May Designate Date For Session During Day

By JOHN PAGET
(N. S. Staff Correspondent)

HARRISBURG, March 27.—Gov. Edward Martin was expected to officially disclose today the date for the general assembly to convene at the state capitol to liberalize absentee voting laws for members of the Armed Forces.

The chief executive's announcement was expected to follow closely on the heels of a report today from a three-member committee advising the governor on special session problems. If the committee's report is received too late, Governor Martin probably will not announce the date until tomorrow's new conference.

Governor Martin has indicated that revision of the absentee voting laws was necessary to give Pennsylvania voters in the Armed Forces ample opportunity to cast their ballots.

There have been indications that the legislators will be directed to meet at Harrisburg May 1. Governor Martin was expected to impress upon the lawmakers the necessity for concluding their deliberations within two weeks.

Legislators, the governor has emphasized, will be confined to consideration of liberalizing so-called soldier voting laws. However, any points listed in the call must be accompanied by legislation appropriating funds for the cost of the session—expected to approximate a quarter of a million dollars.

Local Youth Group To Conduct Services In Tifereth Israel Synagogue

The A. Z. A. Sabbath will be held at the Tifereth Israel synagogue Friday evening, March 31, at 8 o'clock. This is an annual service of this local youth group and the members themselves will participate in the regular prayer services.

Through the kind cooperation of Cpl. Marvin J. Betnun, assistant to the chaplain at Camp Reynolds, two soldiers of outstanding ability from that camp will take part in the A. Z. A. Sabbath.

Cpl. Betnun, a past president and alumnus of A. Z. A. in his communication to Simon Blau, chairman of A. Z. A., expressed regret his duties at Camp Reynolds on Friday nights precludes the possibility of his coming, but felt certain that Sgt. Ziskind and Pvt. Berman would fill the bill admirably.

Sgt. Sam J. Ziskind, a member of the Camp Reynolds newspaper editorial staff, a Phi Beta Kappa member, Yale university graduate, intercollegiate orator and well-known writer, will deliver the sermon. Pvt. David Berman, who has participated in similar services at other camps will serve as the

cantor. Simon Blau will announce the names of the A. Z. A. boys who will participate as soon as details of the service have been arranged.

CARRIES STOVE NOW

ATLANTA, Ga.—(INS)—That old saying of a soldier carrying everything in his field pack but a kitchen stove no longer applies. For a midge stove, weighing less than a pound and a half, has been developed. The Quartermaster Corps Headquarters, Fourth Service Command announced. The appliance is for use by the individual soldier on a mission away from his outfit. It is built on the same principle as regulation field cooking ranges.

the meat business back of him the Seabees are utilizing his knowledge.

Preparing meat to feed 5000 men sounds like a job but every we Sheriff Badger and his crew prepare beef, pork and fowl for the many men. One dish he mentioned sounds familiar but we can't just stop to place it. Steaks.
